The Use Of Voice Interface Systems To Augment Change Collection During Buying And Selling In Ashesi University

Emmanuel Jojoe Ainoo

INTRODUCTION

What is the Problem?

- Difficulty in getting change
- Time is wasted
- Students are forced to overspend
- Money is lost

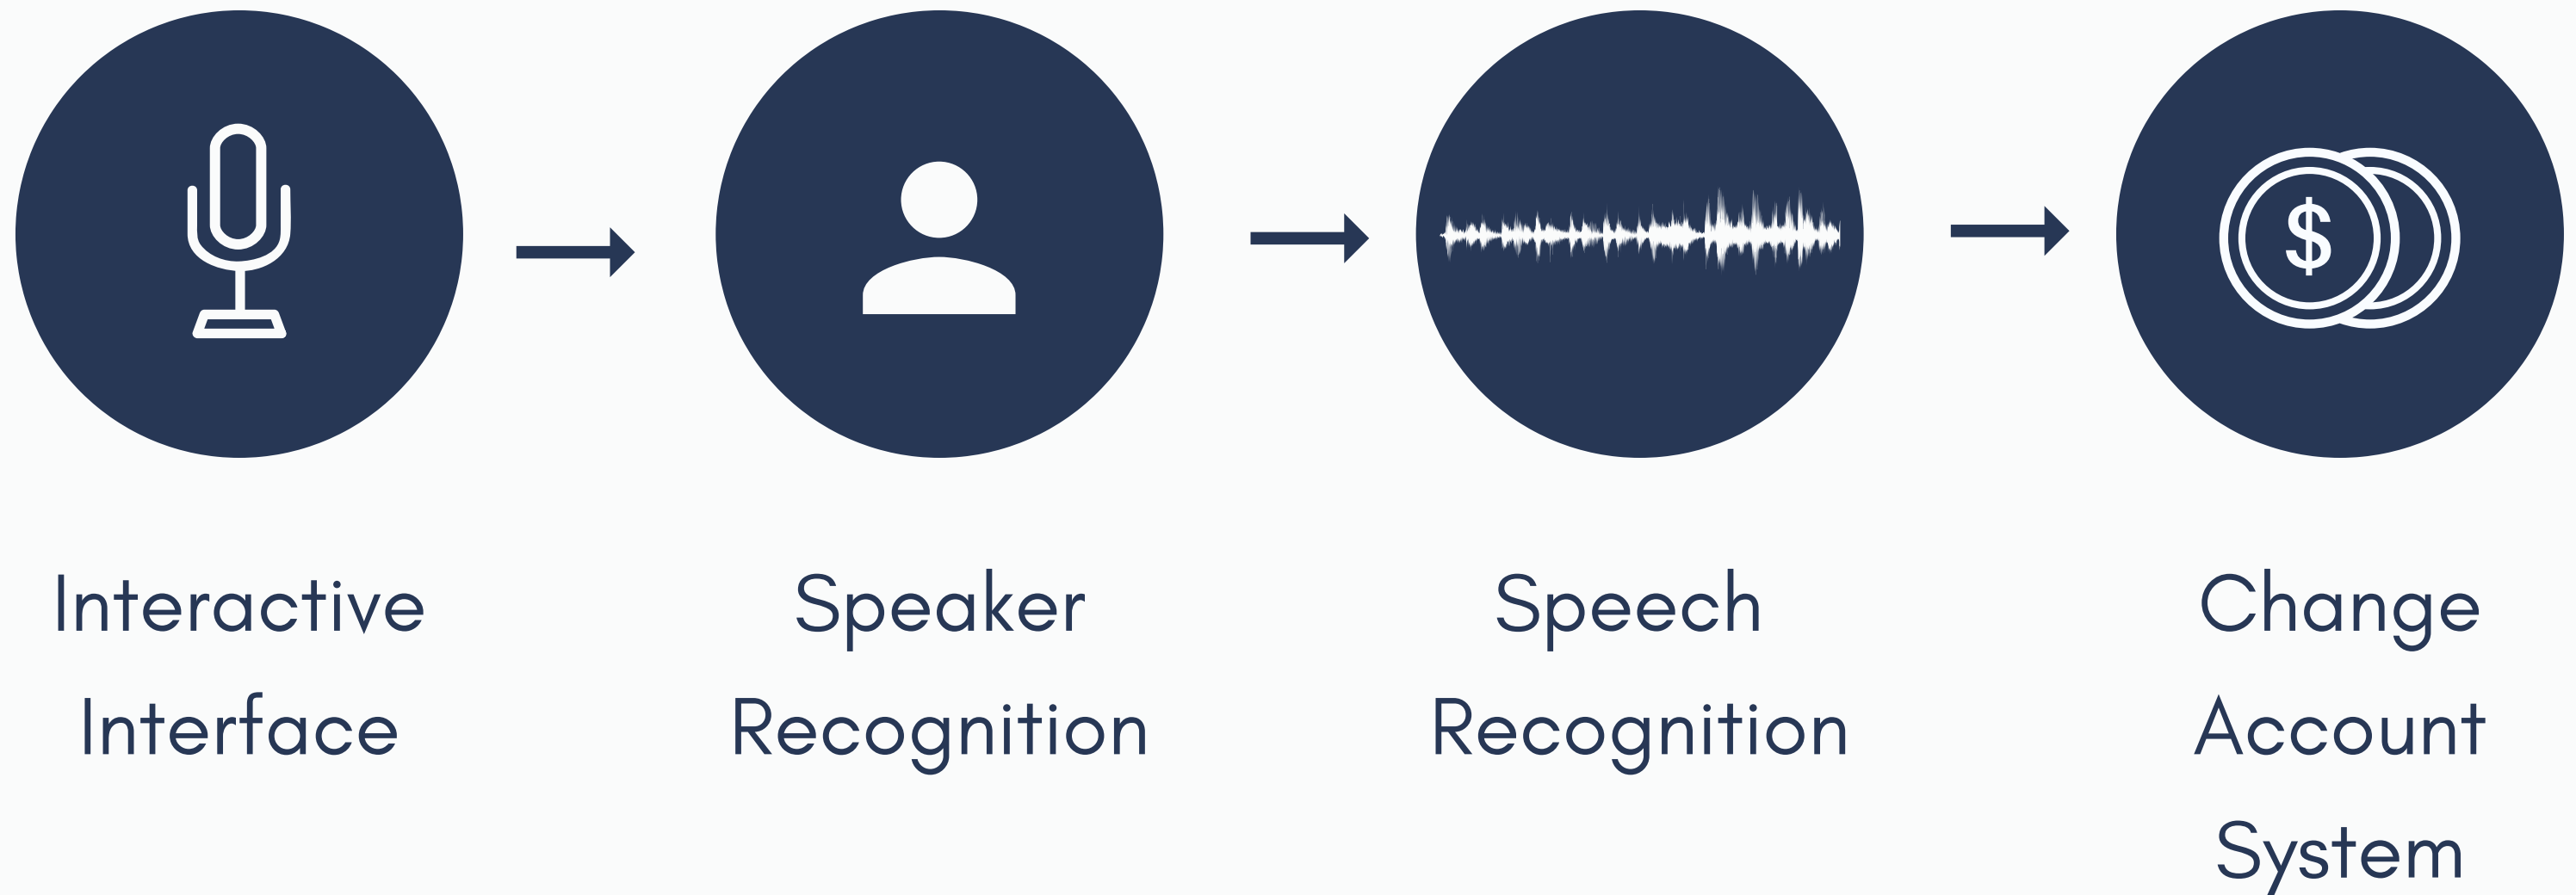

PROPOSED SOLUTION

OK NSESA

The goal is for buyers' change to be converted into electronic currency which can be used for other purchases to avoid change loss.

KEY COMPONENTS

TECHNOLOGIES AND COMPONENTS

DEMO

In Conclusion...

A Natural Language Processing System
called Ok Nsesa, that uses voice
features and commands to allow users
accumulate change amount
electronically
